INTRODUCTION

KASUDO is a token built on the KRC-20 standard, offering a structured distribution system and a fixed supply.

The project emphasizes transparency, fairness and community involvement to establish a sustainable and forward-thinking cryptocurrency.

TOKENOMICS

DISTRIBUTION

The token allocation is structured as follows:

7 % (272,219,500 tokens):

Reserved for future exchange listings to ensure liquidity and accessibility in the market.

3 % (116,665,500 tokens):

Allocated to the team to fund development and ongoing operations.

90 % (3,499,965,000 tokens):

Made available to the community and general circulation. This allocation model maximizes community accessibility while securing resources for development and growth.

TOTAL SUPPLY

The total supply of KASUDO is capped at 3,888,850,000 tokens. This fixed supply ensures scarcity, promoting stability and supporting a sustainable economic model.

TECHNOLOGY

KASUDO leverages the KRC-20 standard, a proven blockchain technology offering:

Efficiency:

Fast and cost-effective transactions.

Security:

A robust framework that ensures the protection of user data and transactions.

GOVERNANCE

KASUDO adopts a community-driven governance model.

The future direction of the project is decided through community participation, including voting and open discussions.

This approach ensures that development aligns with the interests and needs of its users.

KEY FEATURES

Fixed Token Supply:

The total supply of 3,888,850,000 tokens creates a stable foundation for long-term value.

Community-Oriented Development:

The community actively contributes to the project's growth and decision-making.

Focus on Accessibility:

Tokens reserved for exchange listings ensure market availability and liquidity.

VISION

KASUDO aims to create a transparent, accessible, and community-driven platform.

By involving the community in decision-making and maintaining clear tokenomics, **KASUDO** is designed to foster trust and long-term value creation.

CONCLUSION

KASUDO presents a clear and thoughtful model focused on transparency, stability, and community involvement. With its fixed token supply and carefully planned distribution, **KASUDO** is poised to deliver sustainable value and support the development of an engaged and active community.

This whitepaper serves as a foundational document for the project's continued development. Future adjustments can be made through community participation to align with shared goals.

The whitepaper will be gradually adjusted in collaboration with the community; however, the "foundation" will remain unchanged.
